

BASIC SKILLS IN CHILD & ADOLESCENT COUNSELLING

ABOUT THE COURSE

The aim of this course is to develop awareness, knowledge and skills that are beneficial while working with children & adolescents from the counselling perspective. It is based on a body of knowledge drawn from the different psychological theories, developmental psychology and clinical observation.

Training sessions will be partly In-Person and partly Online.

A Certificate will be issued based on completion of course requirements and attendance.

ELIGIBILITY

The advanced programme is offered only to trained and experienced counsellors, engaged in ongoing client work under supervision and who are in personal therapy. Applicants should have a Masters in Counselling / Clinical Psychology (regular) OR should have attended a Parivarthan recognized Counselling Training Programme (minimum of 1 year) that includes both the Theories and Skills of Counselling and have had individual supervised practicum of their work and personal therapy in their Training Programme
